RFP for Selection of IT Vendor for MySurat Project

	<p>responsible for keeping SSCDL aware of consumer trends and technology developments that have potential impacts on SMC. S/he will be responsible for the composition, performance of the team in respect to quality of work, timeliness of delivery, ability to work within budget and ability to deliver the objectives set out in SSCDL's brief. She/he will be responsible for developing project scopes and objectives, involving all relevant stakeholders, and ensuring technical feasibility and developing a detailed project plan to track progress. She/he is expected to manage the relationship with SMC and all stakeholders. She/he is also expected to provide advice on technical aspects of system development and integration (including requests for changes, deviations from specifications, etc.) and ensuring that relevant technical strategies, policies, standards, and practices are applied correctly. He/she would also be responsible for research and administration of social media analytics tool in support of SMC's social media strategy. Should also support SEO strategies by understanding keyword priorities and how they integrate into content marketing plans. Should provide analysis and recommendations as the tool evolves.</p> <p>2. Technical Lead/Senior Developer: Responsible for allocation of staff and/or expertise to project functions and the management of staff utilization through liaison with project manager. She/he would act as a technical mentor/coach to all team members, also contributing to the maintenance and development of the technical competence. She/he also is responsible for carrying out the review meetings. She/he must be good at task management – ensures on time delivery, actively participates in the continuous improvement of software development process; performs root cause analysis, identifies problem areas, and makes recommendations for improvement.</p> <p>3. Business Analyst, Tester & UX Designer: The business analyst's primary objective is helping SMC implement technology solutions in a cost-effective way by determining the requirements of the project and communicating them clearly to stakeholders. Major responsibilities include prioritize requirements and create conceptual prototypes and mock-ups, apply best practices for effective communication and problem-solving, Creating, analyzing, and validating detailed functional specifications, facilitating design sessions with the implementation team to define the solution, delivering elements of systems design, including data migration rules, business rules, wireframes, or other detailed deliverables. He/she should also develop a set of wireframe designs and flowcharts describing how users will interact with the site. He/she should write, review and contribute to test plans, as well as analyze, review and assess requirements and design specifications, identify test conditions, and creating test designs, test cases, test procedure specifications and test data. She/he is expected to execute and log the tests, evaluate the results and document problems found, investigate potential defects, and discuss them with developers. She/he is also expected to monitor the testing and the test environment, often using tools for this task, and gather performance metrics.</p> <p>4. Programmer/Developer: Responsible for creating and modifying computer programs. She/he is expected to assess the requirements of users, develop ways to meet these requirements and translate these solutions into programs. She/he should prepare user manuals and troubleshooting guides to assist other programmers, support technicians and</p>	<table border="1"> <tr> <td data-bbox="1220 228 1482 440">Programmer/Developer</td> <td data-bbox="1482 228 1655 440">B.Tech/B.E/ MCA</td> <td data-bbox="1655 228 1798 440">3 years</td> <td data-bbox="1798 228 2132 440"> <ul style="list-style-type: none"> • Total 3 years post qualification experience. • Proven experience as a developer with a logical approach to problem solving </td> </tr> <tr> <td data-bbox="1220 440 1482 647">Mobile Application Developer</td> <td data-bbox="1482 440 1655 647">B.Tech/B.E/ MCA</td> <td data-bbox="1655 440 1798 647">2 years</td> <td data-bbox="1798 440 2132 647"> <ul style="list-style-type: none"> • Total 2 years post qualification experience. • Proven experience as a mobile application development in Android and iOS respectively and testing. </td> </tr> <tr> <td data-bbox="1220 647 1482 818">UX Designer</td> <td data-bbox="1482 647 1655 818">Graduate</td> <td data-bbox="1655 647 1798 818">3 years</td> <td data-bbox="1798 647 2132 818"> <ul style="list-style-type: none"> • Total 3 years post qualification experience. • Proven experience as UX designer for citizen/customer facing portal or mobile app. </td> </tr> <tr> <td data-bbox="1220 818 1482 1094">Tester</td> <td data-bbox="1482 818 1655 1094">B.Tech/B.E/ MCA</td> <td data-bbox="1655 818 1798 1094">3 years</td> <td data-bbox="1798 818 2132 1094"> <ul style="list-style-type: none"> • Total 3 years post qualification experience. • Proven experience as tester in software application testing with background/understanding of software development life cycle </td> </tr> </table>	Programmer/Developer	B.Tech/B.E/ MCA	3 years	<ul style="list-style-type: none"> • Total 3 years post qualification experience. • Proven experience as a developer with a logical approach to problem solving 	Mobile Application Developer	B.Tech/B.E/ MCA	2 years	<ul style="list-style-type: none"> • Total 2 years post qualification experience. • Proven experience as a mobile application development in Android and iOS respectively and testing. RFP for Selection of IT Vendor for MySurat Project

program users. She/he should document all the tasks. After completion of hyper-care support, one programmer/developer is required onsite in the support phase for 3 years on a manpower basis.

5. Mobile Application Developer: Responsible for designing and building advanced applications for the Android and iOS platform. She/he must have strong technical and coding expertise on Android and iOS Mobile Platform. She/he is expected to test code for robustness, including edge cases, usability, and general reliability. Also, work on bug fixing and improving application performance and continuously discovering, evaluating, and implementing new technologies to maximize development efficiency. One developer is required for Android platform and other for iOS.

The Bidder shall have to provide billing rates for each profile in online form along with Financial Proposal. Though the pricing is a fix bid type and billing rates will not be considered in financial evaluation, but in case additional resources are required, the below mentioned rates would be used. Based on the resource requirement for completion of the above scope of work, agency may deploy additional resources. The roles and CV for these resources need to be submitted as per Form 1.10 of Appendix 1. The additional resources will not be considered for technical evaluation. No CV should be shared for resources not assigned to this project.

Note: The cost of additional resources will not be considered for financial evaluation. If required, SMC/SSCDL may ask the bidder to deploy additional resources as per the rates specified in the table. **Monthly Billing Rate (Appendix-4)** must be submitted online.

Sr. No.	Role	No. of Members	Monthly Billing Rate
1	Project Manager, Technology Strategist & Social Media Analyst	1	
2	Technical Lead/Senior Developer	1	
3	Business Analyst, Tester & UX Designer	1	
4	Programmer/Developer	1	
5	Mobile Application Developer (For iOS and Android- one each)	1	

2. Technical Lead/Senior Developer: Responsible for allocation of staff and/or expertise to project functions and the management of staff utilization through liaison with project manager. She/he would act as a technical mentor/coach to all team members, also contributing to the maintenance and development of the technical competence. She/he also is responsible for carrying out the review meetings. She/he must be good at task management – ensures on time delivery, actively participates in the continuous improvement of software development process; performs root cause analysis, identifies problem areas, and makes recommendations for improvement.

3. Business Analyst: The business analyst's primary objective is helping SMC implement technology solutions in a cost-effective way by determining the requirements of the project and communicating them clearly to stakeholders. Major responsibilities include prioritize requirements and create conceptual prototypes and mock-ups, apply best practices for effective communication and problem-solving. Also creates, analyzes, and validates detailed functional specifications. He/she would also be responsible for successful implementation of social media analytics tool in support of SMC's social media strategy. Should provide analysis and recommendations as the tool evolves.

4. Programmer/Developer: Responsible for development and implementation of the portal, CMS and database. S/he is expected to carry out necessary coding, unit testing, debugging, enhancement and performance tuning as per best practices. S/he will be required to setup coding standards to be followed in the project. Responsible for necessary technical documentation, unit test cases, supporting UAT testing and user guides. After completion of hyper-care support, a programmer/developer is required onsite for 3 years on a manpower basis. S/he will be required to undertake and develop the customizations and enhancements as and when required during this period.

5. Mobile Application Developer: Responsible for designing and building advanced applications for the Android and iOS platform. She/he must have strong technical and coding expertise on Android and iOS Mobile Platform. She/he is expected to test code for robustness, including edge cases, usability, and general reliability. Also, work on bug fixing and improving application performance and continuously discovering, evaluating, and implementing new technologies to maximize development efficiency. One developer is required for Android platform and other for iOS.

6. UX Designer: S/he will be responsible for using defined functional and content requirements for the portal and mobile app to develop a set of wireframe designs, mockups and flowcharts describing how users will interact with the site. S/he is also responsible for the visual presentation of the portal & mobile app and for development of a visual identity as per the objectives of mySurat.

7. Tester: Should write, review and contribute to test plans, as well as analyzing, reviewing and assessing requirements and design specifications, identifying test conditions and creating test designs, test cases, test procedure specifications and test data. She/he is expected to
